Theme Explanation

Knight's Vision

The 2008 yearbook is based on our mascot, The Scarlet Knight. Throughout high school The Knight has watched us grow academically, physically, and socially. The Knight has been a huge part in all the memories we have made throughout our four years here. The pictures we have taken, the memories we have written, and the friends we have made are all incorporated into this yearbook and shown through the Knight's vision. This yearbook is composed entirely of North Andover High School students and has been created to resemble a scrapbook. The Knight has watched us all grow throughout the years and now it is time to look back upon what he saw.

Yennifer Zanutto

8/5/89-1/8/07

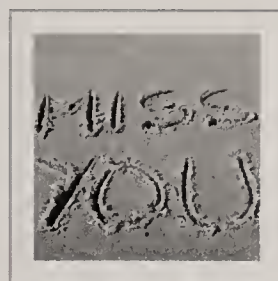

Yennifer was an energetic young woman with a magnetic personality who very sincerely made you smile. She started NAHS as a freshman in 2004. Many of us became familiar with her family when her father was diagnosed with brain cancer during that year and our community generously helped to support her family through financial donations. Thankfully her father made a full recovery and is doing very well. As an unimaginable twist, as he recovered, Yennifer was diagnosed with a rare cancer that manifested in a tumor around her esophagus. Diagnosed in December, Yennifer underwent aggressive treatment at Massachusetts General Hospital that kept her from attending school from that point on.

Throughout her illness, Yennifer was adamant about maintaining her studies and worked with tutors to keep current with her schoolwork. She was unwavering in her optimism and never complained about her situation. Yennifer was the rare adolescent who saw beyond herself and felt her blessings rather than mourned the loss of her childhood to a disease that kept her away from the simple pleasures her friends were enjoying. She worried about others and not herself. Yennifer maintained social relationships and was here on November 17th to visit friends and teachers. During her visit Yennifer insisted on visiting each of her teachers, including those she had never met, but worked with through her tutor. Yennifer understood how important relationships are and treated every person who crossed her path as a blessing. The strength of her character and the radiance of her spirit was truly breathtaking.

Having immigrated from Colombia, Yennifer's immediate family (which includes her parents and a six year old brother) returned to Colombia to spend the holidays with their extended family. It was in Colombia that Yennifer very peacefully passed away.

Anyone who spent any time with Yennifer knows what a bright and joyful spirit she had. We are all saddened by the loss of such a young life. However, I am comforted by one of the last things Yennifer talked about before leaving. She told me that the single worst part of being confined to the hospital was not being able to come to school; that being at North Andover High School gave her the greatest sense of joy and accomplishment and that this was home.

-Mrs. Driscoll

We all go through life with the love of friends and family
 Even though we know they will all leave us eventually
 Never knowing where the future might lead you
 No worries though, there is a future for them too
 Because even if there not in front of you they will always be in your
 heart

Nobody or nothing could tear a love like that apart
 With that being said my friend you will always be with me
 And when my time has come I will meet you there you will see
 I know you are looking down on me now and then
 Up in a place we like to call heaven
 Make sure there is room for me when I get there
 Just so that I know that you still care
 I don't know how long it will be before it is my time
 So I'm letting you know with this little rhyme
 That I will always be here no matter where you are
 You won't even have to reach out to me because
 I will never be that far
 Don't ever fear because my love will forever send
 And I will be by your side when my life comes to an end.

-Jennifer Timmons

[Dear Yennifer]

"Up to this day I still have a hard time accepting that you're gone and as I look back on it I remember all the good times we had before this happened. There's not one day that goes by that I don't think about you. You were there when I needed someone to talk to and you were the one person I knew I could count on to accept me for me and not judge me for what I do or say. You really are the best and truest friend I could ever have. I'll never forget about you and one day we will meet again."

-Lauren Sacco

"Shes in a better place and we will keep her in mind and spirit. God will take care of her much better than any doctor. Rest in peace Yennifer you will never be forgotten."

-Valerie Williams

Going through our memories
 That's always what I do
 Because that's all you've left me
 Just memories of you.

Looking at your pictures
 Just makes me smile
 Because looking at you
 Makes my life worthwhile

In my dreams, I wish
 That you're always there
 We'll never be apart
 We'll be together forever

But now I must accept
 That now, you are gone
 But in my heart
 You're still my only one.

-Michael Kenneth

The Editor's Page

When we volunteered to become the editors of the 2008 yearbook, we had no idea what was in store for us. Despite all the hard work and extremely long hours, we somehow managed to complete this monumental task. To some, this may just be a yearbook, but to us, it will be our creation as well as a tribute to the memories and friends that we have made here at NAHS.

At first, the tasks were pretty easy. We did the typical preparations for the senior class, which included creating the superlatives and collecting candid photos. Soon, the time that we dedicated to yearbook began to get longer and longer and we spent hours working on page layouts. On many occasions, we practically lived in the sauna of the yearbook room, skipping classes and dedicating our seminar periods, just so we could get one more page done or one more picture scanned. We all stayed hours after school and during vacations working on pages, while we gossiped and talked about our plans for the weekend. The long hours that we all spent together eventually turned six very different people into the closest of friends. Although we sometimes argued over a layout, or who got the comfy chair, none of us will ever regret joining yearbook. We now know that it was definitely worth it in the end.

This yearbook would not have been possible without the help of many people. The senior editors would like to thank our junior editor Maggie Lee. We wish you the best of luck in making next year's yearbook. We would also like to thank Mrs. Wolf for everything that she has done this year. This entire yearbook would not have been possible without you and we wish you nothing but the best. We would also like to thank Miss. Darmon for stepping in when Mrs. Wolf was out. You really made sure that everything was going smoothly and that we were on task. A big thank you goes out to Jostens Publishing Company as well as our representative Tom Keeley. Thank you for your patience and guidance throughout the creation process. Mark Lawrence Photography has been a great help to us in making this book. They are responsible for most of the photography throughout the book. Thanks for all of the great pictures! Thank you to all businesses and parents that submitted advertisements, your funding has greatly helped us in making this book a reality. Lastly, we would like to thank Facebook. Without it, we would never have had enough candid photos to fill our pages.

Although we will leave NAHS on June 6, 2008, our memories that we made here will truly last a lifetime. We wish the class of 2008 the best of luck in their future endeavors. Even though we will all be going our separate ways, we hope that every time you open this yearbook, you will be reminded of the great friends and awesome memories that you had here at North Andover High School.

Sincerely,

Alex Bussell, Greg MacPhee, Jackie Carroll,
Martha Rullo, and Meghan Doherty

Friends through the years...

In first grade your idea of a good friend was the one who let you have the red crayon, when all that was left was the ugly black one.

In second grade your idea of a good friend was the person who helped you stand up to the class bully.

In fourth grade your idea of a good friend was the person who was willing to switch square dancing partners in gym so you wouldn't have to do-si-do with nasty Nick or stank Susan.

In third grade your idea of a good friend was the person who shared their lunch with you when you forgot yours on the bus.

In fifth grade your idea of a good friend was the person who saved a seat on the back of the bus for you.

In sixth grade your idea of a good friend was the person who went up to Nick or Susan, your new crush, and asked them to dance with you, so that if they said no, you wouldn't feel embarrassed.

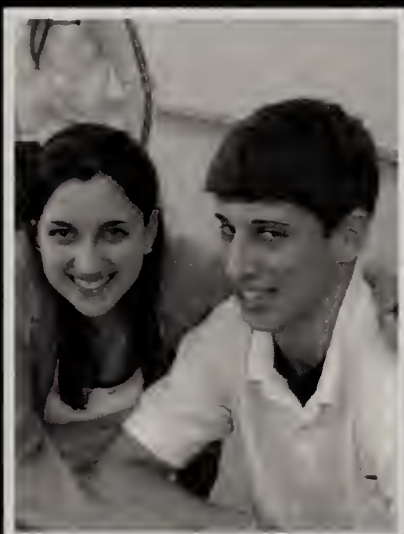

In seventh grade your idea of a good friend was the person who let you copy the social studies homework from the night before that you had forgotten about.

In eighth grade your idea of a good friend was the person who helped you pack up your stuffed animals and old baseball cards so that your room would be a "high schooler's" room, but didn't laugh at you when you finished and broke out into tears.

In tenth grade your idea of a good friend was the person who changed their schedule so you would have someone to sit with at lunch.

In ninth grade your idea of a good friend was the person who went with you to that "cool" party thrown by a senior so you wouldn't wind up being the only freshman there.

In eleventh grade your idea of a good friend was the person who gave you rides in their new car, convinced your parents that you shouldn't be grounded, consoled you when you broke up with Nick or Susan, and found you a date to the prom.

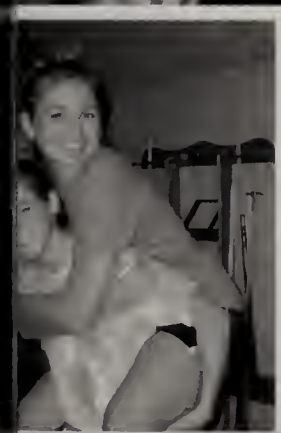

In twelfth grade your idea of a good friend was the person who helped you pick out a college, assured you that you would get into that college, helped you deal with your parents who were having a hard time adjusting to the idea of letting you go...

At graduation your idea of a good friend was the person who was crying on the inside but managed the biggest smile one could give as they congratulated you.

The summer after twelfth grade your idea of a good friend was the person who helped you clean up the bottles from that party, helped you sneak out of the house when you just couldn't deal with your parents, assured you that now that you and Nick or you and Susan were back together, you could make through anything, helped you pack up for college and just silently hugged you as you looked through blurry eyes at 18 years of memories you were leaving behind, and finally on those last days of childhood, went out of their way to come over and send you off with a hug, a lot of memories, reassurance that you would make it in college as well as you had these past 18 years, and most importantly sent you off to college knowing you were loved.

Faculty...

Mrs. Pat Maloney-Brown

Mrs. Patricia Maloney-Brown, known to all simply as PMB, is retiring this year after nearly 30 years of teaching at NARTS. She taught English, as well as American Thought, a class which she founded. "Am Thought" is a unique combination of History and English that has helped to teach numerous students using unconventional methods. Her influence will continue to be felt through the many students who have passed through her classroom and who those who continue to learn with techniques that she pioneered.

“A fixture who will be difficult to replace, PMB is truly one of a kind who will be remembered long after she goes for what she contributed to the students of NARTS for nearly 3 decades. She is a unique individual with unique talents. We wish her all the best in the years to come.”

-Mr. Gregoire

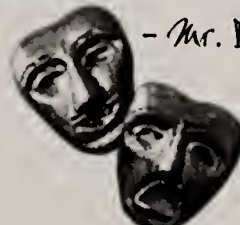

PMB is a dedicated and passionate teacher. Without her, numerous students would have never been able to go through the unique experience of American Thought. Her teaching style has helped many students step up as leaders, scholars, performers, and artists. We will miss her vibrant presence at NARTS.

-Katy Mastrocola '09

PMB- Theatrical and Intellectual
She truly loved her job. Passionate, Inspirational, and Dedicated. A champion of Gardner's theory of Multiple Intelligences. The founder and creator of American Thought. A strong contributor to the theater arts program at NARTS. PMB has touched the lives of thousands, she has had a positive influence on the world.

- Mr. Dulin

If Pat Maloney-Brown's career were to be brought to the stage, her final scene at NARTS would surely bring the audience to its feet. Since the start of her career, PMB has found true joy in teaching, and even as she approaches the last "act," she still gets excited about her classes. As the consummate "guide on the side," PMB has challenged her students to find authenticity in their work and take academic risks. She has taught them that "the whole is greater than the sum of its parts," emphasizing that the process is equally as important as the finished product. She has inspired students to express their ideas in myriad ways, each avenue contributing to the individual discovery of self. The bursts of song, crying baby noises, and the whacky Halloween characters all capture the fun, free spirit that is PMB. As her student, I discovered that I am capable of so much more than I thought possible, and that the opportunity to find meaning is truly endless. As her colleague, I embrace her philosophy of education and recognize that PMB has influenced me in more ways than she will ever know- and for that I am forever grateful. Even though I chuckle when she calls me her "academic daughter," I sincerely appreciate both her mentoring and friendship.

Your Official Year Book Photographer

Meghan Doherty

Your true character is revealed by the clarity of your convictions, the choices you make, and the promises you keep. Hold strongly to your principles and refuse to follow the currents of convenience, what you say and do defines who your are, and who you are... you are forever.

Your second grade teacher told me, "Meghan will be a great contribution to society one day because of her character, kindness, and compassion to her peers." I never forgot those kind words, and I know that they are words that have come to pass.

Good Luck! I love you!
Mom

Nathan Porteous

Congratulations Nathan!

We are so proud of all you have accomplished and, more importantly, of the young man you have become. A shining future is waiting for you - grab hold and don't let go! You can't help but succeed if you continue to have faith in yourself, fight for what is right, and follow your dreams.

With much joy, celebration, and love,
Mom, Dad, and Hannah

"Our sweetest moments are many,
not few
They're in each thought we have
of you
The world is yours, proceed
with ease,
And handle life, as a
gentle breeze.
The crooked roads are to
smile upon,
For each path presents a brand
new dawn.
Stand tall and reach for
the sky,
It's all yours, Baby Girl, don't let it
pass by."
Love forever and always XoxO

We hope you choose the one that means the most to you.

"People are often unreasonable, illogical and self-centered; forgive them anyway. If you are kind, people may accuse you of selfish, ulterior motives; Be kind anyway. If you are successful you will win some false friends and some true enemies; succeed anyway. If you are honest and frank, people may cheat you; Be honest and frank anyway. What you spend time building, someone could destroy overnight; Build anyway. If you find serenity and happiness, they may be jealous; be happy anyway. The good you do today, people will often forget tomorrow. Do good anyway. Give the world the best you have, and it may never be enough; Give the world the best you've got anyway. You see, in the final analysis, it is between you and God; it was never between you and them anyway."

I Hope You Dance

I hope you never lose your sense of wonder
You get your fill to eat but always keep that hunger
May you never take one single breath for granted
God forbid love ever leave you empty-handed
I hope you still feel small
When you stand beside the ocean
Whenever one door closes, I hope one more opens
Promise me that you'll give faith a fighting chance
And when you get the chance to sit out or dance
I hope you dance. I hope you dance.

Daniel Simon Skoler

Dan,

"You are the sunshine of my life!"

You have made your family proud as an 18 year old High School Graduate, and with your great, versatile musical talents as a wonderful guitarist and composer. Your love of music began at 5, when you started violin, then piano lessons with mom and clarinet with dad; then continuing on clarinet for 4 years with the high school band. And you surprised us - picking up the marimba and playing some nice solos in the pit, with the marching band, this fall. Dan, I'm also proud of your years of athletics starting with hockey, soccer, basketball, skiing, but excelling in baseball, your favorite. Throughout high school you chose to play tennis to keep up your sports. I've enjoyed watching you grow into a great kid. With your love of life, music, sports, your drive, your comedic personality - may you find much success and happiness throughout your life's ambitions and dreams. I'll be listening for you soon at Berkeley College of Music - so keep practicing! Here's to life, here's to love, and here's to you, Dan.

Love,
Momma

Brienne,

Always remember to forget
The troubles that passed away.
But never forget to remember
The blessings that come each day.

May you have the hindsight to know where you've been,
The foresight to know where you are going,
And the insight to know when you have gone too far.

We are proud of you. Good luck,
Love,

Mom, Dad, Colleen, Jill, and Dennis

"There's a Monster in Scott's Room"

He's not sure... maybe it's an alien.

"I'll sleep on the floor in Anna's room," I find him curled- a cat on the foot of his sister's bed.

"It's that werewolf movie commercial," he says. We tried rearranging the furniture, painted golden stars on the valance boxes. Once, when Scott was out with his Dad, I sorted through a myriad of Legos and plastic plastid-prehistorics, another effort to ferret out the monster problem. I gazed out of Scott's window into the woods behind our house. I wonder, does he hear some mournful howl in the night? A nearby owl or wintering squirrel rustling in the leafy carpet? I smooth my tongue over my incisors... His galaxy mobile turns slowly with no breeze. If I'd had some, the hair on the back of my neck and knuckles would've stood on end.

I can't recall how to exorcise those demons, the ones who prey on seven-year-old little boys. Yet I suppose, were I hirsute and clawed and loping the lonely night woods, it might be in Scott's room that I'd find comfort and want to stop and rest.

And if I were an alien? Intelligent life it seems to me. Scott knows well the dynasty of dinosaurs. He has a deep affection for scaled beings.

"Triceratops," I love to hear him say. At times, I am plagued by the vision of a scruffy werewolf sitting spread-legged at the foot of Scott's bed; neon colored tiny dinosaurs between his fingertips, a curious orphan, quietly playing while Scott sleeps nearby. There is other evidence of goings on; surgical incisions in hapless teddy bears, piles of random toys appearing on the floor, whose origins baffle Scott as much as they do me. Once, I followed a trail of magnetic blocks down the long hallway it ended abruptly inside the office door. Scott's Electric Eel gun laid eerily close and suction cupped darts stuck to a nearby window. Today Scott told me that if giants still walked the earth, then oceans would be ponds and ponds would be puddles. I think to myself, "He does know valuable secrets."

Scott Alan Harris

Scott, wherever you go, you carry our hearts with you, looks like we'll all be going a long way!

Congrats, Mom, Dad, Jess, Jeff, Brian, Anna, & Abby

Love, Mom, Dad, and John

Ladies and Gentlemen of the Class of 2008:

Wear sunscreen.

If I could offer you only one tip for the future, sunscreen would be it. The long term benefits of sunscreen have been proved by scientists, whereas the rest of my advice has no basis more reliable than my own meandering experience. I will dispense this advice now.

Enjoy the power and beauty of your youth; oh never mind; you will not understand the power and beauty of your youth until they have faded. But trust me, in 20 years you'll look back at photos of yourself and recall in a way you can't grasp now how much possibility lay before you and how fabulous you really looked. You're not as fat as you imagine.

Don't worry about the future; or worry, but know that worrying is as effective as trying to solve an algebra equation by chewing bubblegum. The real troubles in your life are apt to be things that never crossed your worried mind; the kind that blindside you at 4 p.m. on some idle Tuesday.

Do one thing everyday that scares you.

Sing.

Don't be reckless with other people's hearts, don't put up with people who are reckless with yours.

Floss.

Don't waste your time on jealousy; sometimes you're ahead, sometimes you're behind; the race is long, and in the end, it's only with yourself.

Remember the compliments you receive, forget the insults; if you succeed in doing this, and tell me how.

Keep your old love letters, throw away your old bank statements.

Stretch.

Don't feel guilty if you don't know what you want to do with your life, the most interesting people I know didn't know at 22 what they wanted to do with their lives, some of the most interesting 40 year olds I know still don't.

Get plenty of calcium.

Be kind to your knees, you'll miss them when they're gone.

Maybe you'll marry, maybe you won't, maybe you'll have children, maybe you won't, maybe you'll divorce at 40, maybe you'll dance the funky chicken on your 75th wedding anniversary.

Whatever you do, don't congratulate yourself too much, or berate yourself either, your choices are half chance, so are everybody else's. Enjoy your body, use it every way you can, don't be afraid of it, or what other people think of it, it's the greatest instrument you'll ever own.

Dance, even if you have nowhere to do it but in your own living room.

Read the directions, even if you don't follow them.

Do NOT read beauty magazines, they will only make you feel ugly.

Get to know your parents, you never know when they'll be gone for good.

Be nice to your siblings; they are the best link to your past and the people most likely to stick with you in the future.

Understand that friends come and go, but for the precious few you should hold on. Work hard to bridge the gaps in geography and lifestyle because the older you get, the more you need the people you knew when you were young.

Live in New York City once, but leave before it makes you hard; live in Northern California once, but leave before it makes you soft.

Travel.

Accept certain inalienable truths, prices will rise, politicians will philander, you too will get old, and when you do you'll fantasize that when you were young prices were reasonable, politicians were noble and children respected their elders.

Respect your elders.

Don't expect anyone else to support you. Maybe you have a trust fund, maybe you have a wealthy spouse; but you never know when either one might run out.

Don't mess too much with your hair, or by the time you're 40, it will look 85.

Be careful whose advice you buy, but, be patient with those who supply it.

Advice is a form of nostalgia, dispensing it is a way of fishing the past from the disposal, wiping it off, painting over the ugly parts and recycling it for more than its worth.

But trust me on the sunscreen.

-Baz Luhrmann, "Everybody's Free to Wear Sunscreen"

Congratulations!
